

# TREAD RITE

The Tread Rite tool is an essential part of your vehicle inspection process. With the Tread Rite, you can include tread measurement in your Tech Before You Touch inspection.

The Tread Rite tool works in two convenient ways, choose the one that works best for your operation.

- Tread Rite Application
- Direct communication to TPMS tool

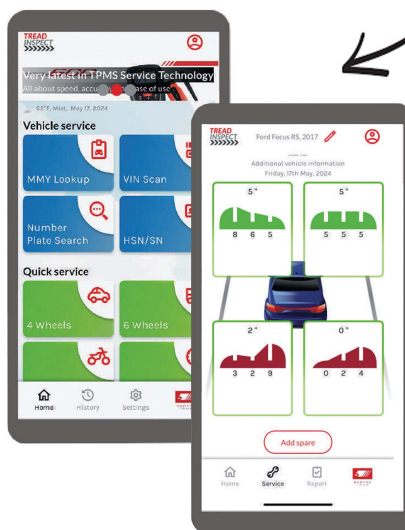

Simple integration to your Bartec TPMS Tool or Tread Rite App and you are ready to measure remaining tread. When working with the Tread Rite App, you can text, e-mail or print the results.

Uses two AAA batteries (included) and a replaceable pin design. The Tread Rite is light and robust.

- ✓ Bluetooth connectivity to Tech600Pro and Tech550Pro
- ✓ Bluetooth connectivity to Android® and Apple® devices
- ✓ Visual aid depth measurement for quick check
- ✓ User replaceable measurement pin
- ✓ Configurable number of measurements per wheel
- ✓ Ergonomic design

Print directly from the Tread-Rite app!
