- Fold-Up Design

PATENT PENDING

EFFORTLESS MOBILITY!

Introducing the revolutionary TCS-40 support arms for your Branick Tire Carts: a game changer in workplace ergonomics. Designed to significantly reduce back strain among employees, the TCS-40 not only enhances comfort but also lowers risk of work-related injuries, leading to reduced workers' compensation claims. By providing a safer and more efficient working environment, you can expect a significant increase in productivity. When your Branick Tire Cart is not in use the Fold-Up design allows for compact storage. Made in the U.S.A at Branick's manufacturing facility in Fargo, ND!
